Dear Applicant:

Thank you for your interest in the Fulbright-Hays Doctoral Dissertation Research Abroad (DDRA) Program. Included in this booklet are the background information, instructions, and forms needed to submit a complete application package to the U.S. Department of Education. The Technical Review Form (including the selection criteria) is also provided to assist you in developing the narrative portion of your application.

The DDRA Program provides fellowships for 6-12 months of research overseas to doctoral students who are enrolled in modern foreign language or area studies programs, and who intend to pursue teaching careers.

Your DDRA application must be submitted through a US institution of higher education. A list of institutional DDRA Program contacts is included in this application. Please be advised that the list does not include all institutions. If your institution is not listed, you are still welcome to apply through the appropriate office on your campus.

The DDRA Program is piloting electronic applications this year. Please check with your institutional contact to see if your university is participating. All applications from the institution must be submitted in either electronic or paper format. If your institution is using paper submission, you may use either this booklet or print a paper version from our website (www.ed.gov/offices/OPE/HEP/iegps/ddrap.html) for completion.

You may address specific questions regarding the application process to Karla Ver Bryck Block (email karla.verbryckblock@ed.gov or telephone 202-502-7632). General information or additional copies of the application may be obtained by calling 202-502-7700, or from our website.

We appreciate your interest in the DDRA Program and look forward to receiving your application.

Sincerely,

Wilbert Bryant

PRIORITY

This competition focuses on projects designed to meet a priority in the regulations for this program (34 CFR 662.21(d)).

Absolute Priority:

A research project that focuses on one or more of the following areas: Africa, East Asia, Southeast Asia and the Pacific, South Asia, the Near East, East Central Europe and Eurasia, and the Western Hemisphere (Canada, Central and South America, Mexico, and the Caribbean). Under 34 CFR 75.105(c)(3) we consider only applications that meet the priority.

INSTRUCTIONS FOR TRANSMITTAL OF APPLICATIONS:

Note: Some of the procedures in these instructions for transmitting applications differ from those in the Education Department General Administrative Regulations (EDGAR) (34 CFR 75.102). Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed regulations. However, these amendments make procedural changes only and do not establish new substantive policy. Therefore, under 5 U.S.C. 553(b)(A), the Secretary has determined that proposed rulemaking is not required.

PILOT PROJECT FOR ELECTRONIC SUBMISSION OF APPLICATIONS:

In FY 2003, the U.S. Department of Education is continuing to expand its pilot project of electronic submission of applications to include additional formula grant programs and additional discretionary grant

competitions. The Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program - CFDA 84.022A is one of the programs included in the pilot project.

The pilot project involves the use of the Electronic Grant Application System (e-APPLICATION, formerly e-GAPS) portion of the Grant Administration and Payment System (GAPS). We request your participation in this pilot project. We shall continue to evaluate its success and solicit suggestions for improvement.

If you participate in this e-APPLICATION pilot, please note the following:

- Your participation is voluntary.
- You will not receive any additional point value or penalty because you submit a grant application in electronic or paper format.
- You can submit all documents, except transcripts, electronically, including the Application for Federal Assistance (ED 424), Budget Information-Non-Construction Programs (ED 524), and all necessary assurances and certifications. Transcripts must be mailed separately.
- Within three working days of submitting your electronic application, fax a signed copy of the Application for Federal Assistance (ED 424) to the Application Control Center after following these steps:
 1. Print ED 424 from the e-APPLICATION system.
 2. Make sure that the institution's Authorizing Representative signs this form.
 3. Before faxing this form, submit your electronic application via the e-APPLICATION system. You will receive an automatic acknowledgement, which will include a PR/Award number (an identifying number unique to your application).
 4. Place the PR/Award number in the upper right hand corner of ED 424.
 5. Fax ED 424 to the Application Control Center at (202) 260-1349.
- We may request that you give us original signatures on all other forms at a later date.

You may access the electronic grant application for the Fulbright-Hays Doctoral Dissertation Research Abroad Program at:

<http://e-grants.ed.gov>

We have included additional information about the e-APPLICATION pilot project (see Parity Guidelines between Paper and Electronic Applications) in the application package.

Note 1: An applicant institution of higher education must submit all of its applications in either electronic or paper format. Students interested in funding under this program must check with the applicant institution to see which method of submission the institution will use.

SUPPLEMENTARY INFORMATION: Background

On March 4, 1995 the President announced a Regulatory Reinvention Initiative to reform the Federal regulatory system. In response to the President's initiative, on August 23, 1996 the Secretary issued an Advance Notice of Proposed Rulemaking (ANPRM) to request public comment on the changes being considered in the Department's programs to simplify regulations and reduce regulatory burden (Regulatory Reinvention, 61 FR 43639, August 23, 1996). Regulations for the International Education Programs in 34 CFR Parts 662 (Higher Education Programs in Modern Foreign Language Training and Area Studies--Doctoral Dissertation Research Abroad Fellowship Program), 663 (Faculty Research Abroad Fellowship Program), and 664 (Group Projects Abroad program) were included in the ANPRM. The Secretary received no comments on changes proposed in the ANPRM for the International Education Programs.

Notice of Proposed Rulemaking

On June 19, 1998, the Secretary published a notice of proposed rulemaking (NPRM) for 34 CFR parts 662, 663, and 664 in the Federal Register (63 FR 33765-33776). These final regulations contain one significant change from the NPRM. This change pertains to "health and accident insurance" and is fully explained in the "Analysis of Comments and Changes" elsewhere in this preamble.

Regulatory Changes

As part of the President's Regulatory Reinvention Initiative, the Department is revising the regulations governing the Higher Education Programs in Modern Foreign Language Training and Area Studies--Doctoral Dissertation Research Abroad Fellowship Program, Faculty Research Abroad Fellowship Program, and Group Projects Abroad Program. These amendments are needed to improve the application review process and to update the regulations in light of developments in the field of foreign language, area, and international studies, including political developments abroad, modifications in the policies and practices of the J. William Fulbright Foreign Scholarship Board, and interpretations of regulations. In the spirit of reinventing government, the goal of the changes is to markedly reduce burden associated with the regulations.

These final regulations change the names of these programs to align them with how they are popularly referred to in the field. Additionally, the final regulations make changes in the terminology applicable to these

programs, remove obsolete references, and make changes in the selection criteria. The final regulations also reorganize the sections, change the names of several section titles, correct errors in the numbering of the sections, and make other technical changes to improve the regulations.

The substantive changes in the final regulations are discussed with respect to each part. A number of the substantive changes affect each of the parts being amended (34 CFR Parts 662, 663, and 664). Therefore, in the discussion of the changes under Part 662, it is noted whether the change is duplicated in a corresponding section of Parts 663 or 664.

Part 662

The name of Part 662 is changed to Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program. Throughout Parts 662, 663, and 664 the "Board of Foreign Scholarships" is changed to "J. William Fulbright Foreign Scholarship Board" to reflect the change in the name of the board.

Section 662.3 deletes current paragraph (a)(3) to eliminate persons "in the United States for other than a temporary purpose with the intention of becoming a citizen or permanent resident" as eligible applicants. The change reflects the Secretary's decision that to receive a federally funded fellowship, a person should demonstrate commitment to the United States, either by being a citizen or permanent resident. The change furthers the goal of the program to train people who will then serve in the United States educational field. The change also applies to Secs. 663.3 and 664.3.

Section 662.3 also deletes current paragraph (a)(4) which states that a resident of the Trust Territory of the Pacific Islands is eligible for a fellowship, since these islands are no longer a trust territory. The change also applies to Secs. 663.3 and 664.3.

Section 662.6 revises the list of regulations that apply to the Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship Program, to reflect accurately which parts of EDGAR currently apply to the program.

Section 662.7 revises the list of terms used in this part that are defined in 34 CFR Part 77. Terms that are not used in this part are deleted.

Section 662.7(c) changes the definition of "dependent". These final regulations add the requirement that the individual being claimed as a dependent must accompany the recipient to his or her training site for the entire fellowship period. Also, these final regulations narrow the definition of "dependent" to exclude parents of a participant or parents of the participant's spouse. Both changes in the definition are grounded in the need to conserve limited program funds. By requiring that in order to receive a dependent's allowance the dependent be at the training site for the entire fellowship period, the Secretary will preclude the use of program funds for short term visits. The changes in the dependent's definition with regard to parents bring the program's policy toward dependents more in line with similar fellowship programs. Additionally, only once in more than 30 years of program administration has a dependent's allowance been requested for a parent.

Section 662.7(c) eliminates the definition for "foreign currencies" since all foreign currency accounts previously available to the Secretary for operation of this program have been exhausted.

All of the changes to Sec. 662.7(c) also apply to Sec. 663.7(c).

Section 662.10 incorporates the language found in current Sec. 662.21. Paragraph (c) of current Sec. 662.21 which addresses requirements for an applicant who plans to conduct research in the former USSR and Eastern European countries are deleted, since changes in the research climate in those countries have eliminated the need to require an applicant to apply to the International Research and Exchange Board. The change also applies to Sec. 663.10.

Section 662.20(d) preserves and clarifies the current position of the Department relating to veteran's preference. These regulations add language to clarify that if two scores are tied and one of the applicants is a veteran, the applicant who is a veteran will receive a preference. The change also applies to Sec. 663.20(d).

Section 662.21 revises the selection criteria. The revised criteria reflect a greater consistency with criteria used in comparable fellowship programs. This would facilitate writing fellowship applications for individuals since the applications would be similar.

There would also be a greater emphasis on foreign language training. Since these programs were originally intended to enhance the foreign language competence of individuals trained in American schools, the criteria are modified to give greater emphasis to having acquired a foreign language. Paragraph (c)(3) adds the requirement that the applicant be proficient in one or more of the languages of the country or countries of research, excluding English and the applicant's native language. The language most likely would result in a decrease in the number of applications from individuals wishing to conduct research in English and would encourage non-native born United States citizens or resident aliens to acquire an additional foreign language. The Department has experienced a substantial increase in the number of applications for conducting research in English.

The points assigned are changed to allow the readers greater ability to differentiate among the applications. The changes in points assigned are reflected in Sec. 662.21(a), (b), and (c). Due to the extremely high caliber of applications, there is frequently a clustering of high scores. The point structure allows readers a broader range in which to assign points. Under current Sec. 662.21 points are assigned in a narrow range and a multiplication factor is applied, which results in significant clustering of like applications.

The Department has consulted with various experts in language and area studies as well as administrators of fellowship programs in developing the revisions to the selection criteria. Their comments and feedback have been incorporated into these changes.

The changes to Sec. 662.21 also apply to Sec. 663.21.

Section 662.22 incorporates the language from current Sec. 662.33 and adds a new paragraph (b) to prevent an applicant from receiving more than one fellowship under the Fulbright-Hays Act in a given fiscal year. The provision prevents an applicant from receiving a fellowship from the Department and the United States Information Agency (USIA) within the same fiscal year. The change ensures that limited funds appropriated to the agencies have a broader impact and are not used duplicatively. The change reflects the current policy statements of the Foreign Scholarship Board.

Similar to Sec. 662.10, Sec. 662.22 eliminates language from current Sec. 662.33(a)(2) that addresses requirements for an applicant who plans to conduct research in the USSR and Eastern European countries. Changes in the research climate in those countries have eliminated the need to require an applicant to apply to the International Research and Exchange Board. The change also applies to Sec. 663.22.

Part 663

The name of Part 663 is changed to Fulbright-Hays Faculty Research Abroad Fellowship Program.

Section 663.3 outlines who is eligible to receive a fellowship under this program. Current Sec. 663.3(d)(1) and (2) are deleted from the final regulations because they are part of the selection criteria and should not be considered under eligibility.

Section 663.6 revises the list of regulations that apply to the Fulbright-Hays Faculty Research Abroad Fellowship Program, to reflect accurately which parts of EDGAR currently apply to the program.

Part 664

The name of Part 664 is changed to Fulbright-Hays Group Projects Abroad Program.

Section 664.4 revises the list of regulations that apply to the Fulbright-Hays Group Projects Abroad Program, to reflect accurately which parts of EDGAR currently apply to the program.

Section 664.5 revises the list of terms used in this part that are defined in EDGAR, 34 CFR Part 77. Terms that are not used in this part are deleted.

Sections 664.11, 664.12, and 664.13 revise the length of the projects. Section 664.11 changes the length of a short-term project from six weeks under current regulations, to from four to six weeks. Section 664.12 changes the length of a curriculum development project from six to eight weeks under current regulations, to from four to eight weeks. The current provisions encouraged longer periods in the field, even when they were not necessary for the successful accomplishment of the project goals. The revised, shorter project periods will allow applicants greater flexibility in carrying out their projects. Section 664.13 changes the length of a group research project from two to twelve months under current regulations, to three to twelve months. This change is designed to encourage applicants to develop more in depth research and study projects. In order to be consistent with Parts 662 and 663, Sec. 664.30 adds a new paragraph (d), which establishes that the Secretary will consider for funding only projects that an applicant proposes to carry out in a country in which the United States has diplomatic representation.

Section 664.31(a)(2)(v) and (b)(4), which addresses the inclusion of underrepresented groups in the selection criteria for applications, is revised to be consistent with the Education Department General Administrative Regulations (EDGAR) (Sec. 75.210(c)(5) and (d)(1)(iv)). The language requires the applicant to ensure that participants in the Fulbright-Hays Group Projects and its personnel selected for employment are selected without regard to race, color, national origin, gender, age, or handicapping condition.

Section 664.33(b)(1) allows for greater flexibility in establishing annual per diem rates, consistent with the cost-of-living in overseas areas. Current regulations require a maintenance stipend to be based on 50 percent of the amount established in the U.S. Department of State publication "Maximum Travel Per Diem Allowances for Foreign Areas". Section 664.33(b)(1) eliminates the 50 percent limitation, which would permit an upward or a downward adjustment based on the cost of living in the host country.

Section 664.33 is further revised by adding a new paragraph (c), to permit program funds to be used for emergency medical expenses not covered by a participant's health and accident insurance and for repatriation

of remains. Under current regulations, sections 662.4(b) and 663.4(b) already provided the Secretary with the discretion to use program funds for emergency medical expenses or repatriation of remains.

Analysis of Comments and Changes

In response to the Secretary's invitation to comment in the NPRM, two parties submitted comments on the proposed regulations. An analysis of the comments and of any changes in the regulations since publication of the NPRM follows.

Major issues are grouped according to subject, with appropriate sections of the regulations referenced in parentheses. Other substantive issues are discussed under the section of the regulations to which they pertain. Technical and minor changes--and suggested changes the Secretary is not legally authorized to make under the applicable statutory authority--generally are not addressed.

Health and Accident Insurance (Secs. 662.4, 663.4, 664.33)

Comments: One commenter suggested that health and accident insurance, including emergency medical evacuation and repatriation of remains, be required for Fulbright-Hays participants and that program funds be made routinely available for this purpose.

Discussion: Program practice under all three programs ensures that health and accident insurance is in place before the research or projects may be undertaken. Current Part 662 provides for the use of program funds for health and accident insurance and permits support for emergency medical expenses and repatriation of remains. Current Part 663 does not provide funds for insurance, because the Department believes that it is appropriate for faculty members to continue their health and accident insurance policies in force while they are overseas. Like Part 662, current Part 663 permits funds to be used for emergency medical expenses and repatriation of remains. Current Part 664 does not explicitly provide for the use of program funds for insurance, emergency medical expenses, or repatriation of remains.

The Department believes that the approach in current regulations concerning the use of program funds for insurance, emergency medical expenses, and repatriation of remains is essentially sound. However, the Department is persuaded that the regulations for the Group Projects Abroad program should expressly permit (but not require) the use of program funds for emergency medical expenses or repatriation of remains. This change is consistent with the long-standing cost-sharing policy of the Group Projects Abroad program.

Changes: Section 664.33 is revised to permit program funds to be used for emergency medical expenses not covered by a participant's health and accident insurance and for repatriation of remains.

Dependent (Sec. 662.7(c))

Comments: One commenter expressed concern that the changes to the definition of "dependent" would so narrow eligible visits as to provide a disincentive for participation in the program, and that the new eligibility requirements would provide a significant barrier to providing access to these programs for the full range of qualified applicants. The commenter further stated that it did not appear appropriate to bar support because a school-age child could visit only during the three summer months of the fellow's overseas work, or because the fellow's employed spouse might be able to be abroad for only a semester, or six months.

Discussion: The Department believes strongly that the changes in the definition of "dependent" are necessary to conserve limited program funds. Further, the Department believes that if a child is spending the school year with a working parent here, and plans to go abroad for only the summer, it is unlikely that the fellow would be eligible for a dependent's allowance even under the current regulations, since eligibility is contingent upon the fellow's providing at least 50 percent of the dependent's support for the entire fellowship period, not just the time the dependent is in the field.

With respect to a spouse who is working here and can travel abroad for only a semester or six months, the Department again believes that if a spouse is working here, it is unlikely that the fellow would be providing at least 50 percent of the support for the entire fellowship period. Therefore, even under the current regulations, the fellow would not likely qualify for the dependent's allowance.

The Department does not believe that the proposed change in the definition of "dependent" will provide a barrier to participation in the program, and believes that this change is necessary in order to conserve limited funds.

Changes: None.

Diplomatic Representation (Secs. 662.20(b), 663.20(b), 664.30(d))

Comments: One commenter suggested that the Department eliminate any requirement that projects be conducted in countries in which the United States has diplomatic representation.

Discussion: The Department does not agree that the requirement should be eliminated. The review process for the Fulbright-Hays programs has long involved sending the applications to United States diplomatic officials

overseas for their comments on budget, feasibility, and political sensitivity. The Department believes that these comments are of immense value in ensuring the success of the projects.

Changes: None

Acquired Foreign Language (Sec. 662.21(c)(3))

Comments: One commenter was troubled by the Department's proposed emphasis in the selection criteria on the use of an acquired (i.e., non-native) foreign language. It was the commenter's view that the purpose of the program is to provide support for the development of high-end expertise in languages other than English regardless of the method of acquisition.

Discussion: The purpose of the Doctoral Dissertation Research Abroad Fellowship Program (DDRA) is primarily to support students conducting research overseas in non-native languages other than English. The Department believes that a student conducting research in his or her native language should not enjoy the advantage in the competition that the current regulations provide. Additionally the Department wishes to preserve the program as a vehicle for overseas research by students who have completed the non-native language training under the Department's Title VI Foreign Language and Area Studies (FLAS) Fellowship program.

Changes: None.

Duration of Group Projects (Secs. 664.11, 664.12, and 664.13)

Comments: One commenter supported the Department's change for group research projects at Sec. 664.13, raising the minimum project time from two to three months. The commenter, however, expressed concern at the Department's proposals to allow for shorter project periods in Secs. 664.11 and 664.12. The commenter generally supported the Department's efforts to permit flexibility in setting project timeframes for applicants to carry out their projects but felt that the proposed minimum project length might be too short.

Discussion: The Department's experience in administering short-term and curriculum development projects and working with the academic community suggests that the greater flexibility proposed in the NPRM would not adversely affect the quality or substance of these projects, and is a desirable change.

Changes: None.

Advanced Overseas Intensive Language Training Project (Sec. 664.14(a)(1))

Comment: One commenter recommended amending Sec. 664.14(a)(1) to permit the support of intermediate as well as advanced intensive language programs under the Group Projects Abroad program.

Discussion: The purpose of overseas language training under this program is to increase a student's competency within the project period to a level that permits the student to use the language in research and other professional activities. The Department believes that, as a general rule, a minimum of two years study of a language is needed prior to this training. However, the Department also recognizes the availability of two years of training in certain languages in this country is very limited or non-existent. For this reason, Sec. 664.14(a)(3) of the notice of proposed rulemaking included the word "generally" to give the Department the flexibility to fund projects for students with fewer than two years of language coursework. The Department plans to consider these projects on a case-by-case basis.

Changes: None.

Paperwork Reduction Act of 1995

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control numbers assigned to the collection of information in these final regulations is displayed at the end of the affected sections of these regulations.

Assessment of Educational Impact

In the NPRM the Secretary requested comments on whether the proposed regulations would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

Based on the response to the NPRM and on its own review, the Department has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

If Not Human Subjects Research. Check "No" if research activities involving human subjects are not planned at any time during the proposed project period. The remaining parts of Item 12 are then not applicable.

If Human Subjects Research. Check "Yes" if research activities involving human subjects are planned at any time during the proposed project period, either at the applicant organization or at any other performance site or collaborating institution. Check "Yes" even if the research is exempt from the regulations for the protection of human subjects. (See I.B. "Exemptions" in attached page entitled "Definitions for Form ED 424.")

12a. If Human Subjects Research is Exempt from the Human Subjects Regulations. Check "Yes" if all the research activities proposed are designated to be exempt from the regulations. Insert the exemption number(s) corresponding to one or more of the six exemption categories listed in I.B. "Exemptions." In addition, follow the instructions in II.A. "Exempt Research Narrative" in the attached page entitled "Definitions for Form ED 424." Insert this narrative immediately following the ED 424 face page.

Novice Applicant (See 34 CFR 75.225). For discretionary grant programs under which the Secretary gives special consideration to novice applications, a novice applicant means any applicant for a grant from ED that—

- Has never received a grant or subgrant under the program from which it seeks funding;
- Has never been a member of a group application, submitted in accordance with 34 CFR 75.127-75.129, that received a grant under the program from which it seeks funding; and
- Has not had an active discretionary grant from the Federal government in the five years before the deadline date for applications under the program. For the purposes of this requirement, a grant is active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's authority to obligate funds.

In the case of a group application submitted in accordance with 34 CFR 75.127-75.129, a group includes only parties that meet the requirements listed above.

For the purposes of this paragraph, the term "equipment" includes machinery, utilities, and built-in equipment and any necessary enclosures or structures to house them; and such term includes all other items necessary for the functioning of a particular facility as a facility for the provision of library services.

Executive Order 12372. The purpose of Executive Order 12372 is to foster an intergovernmental partnership and strengthen federalism by relying on State and local processes for the coordination and review of proposed Federal financial assistance and direct Federal development. The application notice, as published in the Federal Register, informs the applicant as to whether the program is subject to the requirements of E.O. 12372. In addition, the application package contains information on the State Single Point of Contact. An applicant is still eligible to apply for a grant or grants even if its respective State, Territory, Commonwealth, etc. does not have a State Single Point of Contact. PROTECTION OF HUMAN SUBJECTS IN RESEARCH

I. Definitions and Exemptions

A. Definitions.

A RESEARCH ACTIVITY INVOLVES HUMAN SUBJECTS IF THE ACTIVITY IS RESEARCH, AS DEFINED IN THE DEPARTMENT'S REGULATIONS, AND THE RESEARCH ACTIVITY WILL INVOLVE USE OF HUMAN SUBJECTS, AS DEFINED IN THE REGULATIONS.

—Research

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Human Subject

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” *(1) If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met. (2) If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the **only** involvement of human subjects will be in one or more of the following six categories of **exemptions** are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. ***If the subjects are children, exemption 2 applies only to research involving educational tests and observations of public behavior when the investigator(s) do not participate in the activities being observed. Exemption 2 does not apply if children are surveyed or interviewed or if the research involves observation of public behavior and the investigator(s) participate in the activities being observed.*** [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

II. Instructions for Exempt and Nonexempt Human Subjects Research Narratives

If the applicant marked “Yes” for Item 12 on the ED 424, the applicant must provide a human subjects “exempt research” or “nonexempt research” narrative and insert it immediately following the ED 424 face page.

A. Exempt Research Narrative.

If you marked “Yes” for item 12 a. and designated exemption numbers(s), provide the “exempt research” narrative. The narrative must contain sufficient information about the involvement of human subjects in the proposed research to allow a determination by ED that the designated exemption(s) are appropriate. The narrative must be succinct.

B. Nonexempt Research Narrative.

If you marked “No” for item 12 a. you must provide the “nonexempt research” narrative. The narrative must address the following seven points. Although no specific page limitation applies to this section of the application, be succinct.

(1) **Human Subjects Involvement and Characteristics:** Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable

(2) **Sources of Materials:** Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) **Recruitment and Informed Consent:** Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the circumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) **Potential Risks:** Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) **Protection Against Risk:** Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) **Importance of the Knowledge to be Gained:** Discuss the importance of the knowledge gained or to be gained as a result of the proposed research. Discuss why the risks to subjects are reasonable in relation to the

anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

(7) **Collaborating Site(s)**: If research involving human subjects will take place at collaborating site(s) or other performance site(s), name the sites and briefly describe their involvement or role in the research.

Copies of the Department of Education's Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff, Office of the Chief Financial Officer, U.S. Department of Education, Washington, D.C. 20202-4248, telephone: (202) 708-8263, and on the U.S. Department of Education's Protection of Human Subjects in Research Web Site at <http://www.ed.gov/offices/OCFO/humansub.html>

**Notice to Applicants:
The Government Performance and Results Act (GPRA)**

What is GPRA?

The Government Performance and Results Act of 1993 (GPRA) is a straightforward statute that requires all federal agencies to manage their activities with attention to the consequences of those activities. Each agency is to clearly state what it intends to accomplish, identify the resources required, and periodically report their progress to the Congress. In so doing, it is expected that the GPRA will contribute to improvements in accountability for the expenditures of public funds, improve congressional decision-making through more objective information on the effectiveness of federal programs, and promote a new government focus on results, service delivery, and customer satisfaction.

How has the Department of Education Responded to the GPRA Requirements?

As required by GPRA, the Department of Education has prepared a strategic plan for 2002-2007. This plan reflects the Department's priorities and integrates them with its mission and program authorities and describes how the Department will work to improve education for all children and adults in the U.S. The Department's goals, as listed in the plan, are:

- Goal 1: Create a Culture of Achievement*
- Goal 2: Improve Student Achievement*
- Goal 3: Develop Safe Schools and Strong Character*
- Goal 4: Transform Education into an Evidence-based Field*
- Goal 5: Enhance the Quality of and Access to Postsecondary and Adult Education*
- Goal 6: Establish Management Excellence*

The performance indicators for the International Education Programs are part of the Department's plan for meeting Goal 5: Enhance the Quality and Access to Postsecondary and Adult Education.

What are the Performance Indicators for the International Education Programs?

The Department's specific goal for the International Education Programs is "to meet the nation's security and economic needs through the development and maintenance of a national capacity in foreign languages, and area and international studies." The objective and performance indicators are as follows:

1. **Maintain a U.S. higher education system with the capacity to produce experts in less commonly taught languages and area studies who are capable of contributing to the needs of U.S. government, academic, and business institutions.**
 - (1.1) Title VI supported institutions provide the majority of the instruction in foreign languages, especially in less commonly taught languages.
 - (1.2) Percentage of graduates of Title VI supported programs report that they found employment that utilize their language and/or area expertise.

Instructions for Students

Program Objective

Section 102(b)(6) of the Mutual Education and Cultural Exchange Act of 1961 (Fulbright-Hays Act) has as its objective the promotion, improvement, and development of modern foreign languages and area studies throughout the educational structure of the United States. To help accomplish this objective the Doctoral Dissertation Research Abroad program provides opportunities for scholars to conduct research overseas in the field of modern foreign languages and area studies.

For the purpose of these programs, area studies is defined as a program of comprehensive study of the aspects of a society or societies, including the study of their geography, history, culture, economy, politics, international relations, and languages.

Research overseas means research outside the United States, Puerto Rico, Guam, American Samoa, the American Virgin Islands. Research will not be funded in countries in which the United States has no diplomatic representation or which are specifically excluded in the Notice of Closing Date annually published in the *Federal Register*.

For a complete description of the program, consult the US Department of Education Regulations 34 Code of Federal Regulations Parts 662.

Eligibility Requirements

To be eligible to receive a fellowship under the Doctoral Dissertation Research Abroad Program, a student must:

1. (a) Be a citizen of the United States; or
(b) Be a permanent resident of the United States;
2. Be a graduate student in good standing at an eligible institution of higher education and who, when the fellowship period begins, has been admitted to candidacy in a doctoral degree program in modern foreign languages and area studies at that institution;
3. Plan a teaching career in the United States upon graduation; and
4. Possess adequate skills in the foreign language(s) necessary to carry out the dissertation research project.

Instructions for Fulbright-Hays Training Grants Application Form

In order that each individual applicant be properly evaluated in accordance with the published procedures, eligibility requirements, and evaluation criteria, it is recommended that this specific application package be completed by each individual scholar applying for the Fulbright-Hays fellowship.

Item 1-4: self-explanatory

Item 5: Enter the name of the institution through which you are applying. A faculty member planning to conduct dissertation research must apply to the Doctoral Dissertation Research Abroad Program through the university in which he or she is enrolled in a doctoral program.

Items 6-8: self-explanatory

Item 9: Indicate all the foreign languages to be used in your research during the fellowship period and submit a completed *Fulbright-Hays Foreign Language Reference Form* for each foreign language listed.

Item 10: Indicate the start and end dates for conducting your research under the fellowship. Activation of the award may be as early as July 1 for students, provided: a US/ED Grant Award Notification has been executed, travel has been approved, and the appropriate research clearances and research visas have been secured by the individual scholar. All research and travel must be completed by December 31 of the year following the year in which the grant is made.

Graduate students may receive fellowships for a period of 6 to 12 months for full time doctoral dissertation research abroad. Fellowships are not renewable.

Item 11: Indicate the date on which you were or will be advanced to candidacy for a doctoral degree. An applicant must be advanced to candidacy by the time his or her overseas research begins but not at the time of his or her application.

Item 12: self-explanatory

Item 13: If resident alien, provide Alien Registration Number, country of birth, and previous citizenship. Please refer to the program's citizenship requirements previously cited in the section dealing with eligibility.

Item 14: self-explanatory

Item 15: Note that only doctoral candidates planning a teaching career are eligible to apply. Student applicants who have received support for more than 6 months under the Doctoral Dissertation Research Abroad programs are not eligible to re-apply.

Item 16: self-explanatory

Item 17: Provide an abstract of no more than 120 words describing your proposed research including a summary of the research to be conducted as well as institutional and individual affiliations.

Item 18: self-explanatory

Item 19: Indicate previous relevant foreign travel, precise period of stay and purpose (e.g., participation in an overseas language program) and specify all previous travel to the proposed host countries listed in item 8.

Items 20-21: Indicate whether you are in default on any US Department of Education Student Financial Assistance loan, US Department of Education grant or any other Federal loan.

Item 22: Indicate all previously held fellowships.

Item 23: Indicate current applications for other fellowships.

Item 24: The signature of the physician or certified nurse practitioner must be on this form. Do not send a separate medical evaluation.

Item 25a: List, in complete detail, starting with the airport closest to your address, all points of travel related to your proposed project departure from and return to the United States (e.g., Philadelphia, PA - London, UK - Johannesburg, SA - London, UK - Philadelphia, PA). The itinerary should not exceed a 12-month period and must include all countries for which a maintenance allowance is requested.

All international travel estimates should be based on commercial high season rates for jet economy travel on U.S. flag carriers. If approved in advance, international travel by automobile, train, or ship may be authorized in certain cases. The cost of travel by surface carrier may not exceed the cost of jet economy travel via the most direct route for the itinerary listed in the Grant Award Notification. Travel by sea also must be on a U.S. flag carrier.

You will not be authorized to travel on grant funds until you have secured the appropriate "research" visas, research permission, and, if necessary, the appropriate affiliation with a host country institution. All travel must comply with the Fly America Act and be approved in writing by the Education Program Staff, US/ED.

No support for dependents' travel is provided.

Item 25b: Compute the maintenance stipend for all countries of research utilizing **Fulbright-Hays Maintenance Allowances** in Section D of the application package. Allowances from other than personal sources (e.g. fellowships) which duplicate benefits received under this program will be deducted from the fellowship. Adjustments will also be made in cases where other organizations assume all or part of a fellow's maintenance costs (e.g. students jointly sponsored by the U.S. Department of Education and IREX will receive prorated allowances. Refer to the Fulbright-Hays Maintenance Allowances).

Item 25c: A dependent means any of the following individuals who will accompany you to your research site and for whom you will be providing over 50 percent support during the entire overseas research period:

a. spouse of program participant;

b. children unmarried and under 21 years of age;

Compute the dependents' allowance by referring to Section D **Fulbright-Hays Maintenance Allowances**.

Item 25d: Compute and justify in detail your needs for this allowance which may include expenses such as books, copying, informants, tutoring, translating and interpreting fees, tapes, film, travel within host countries, tuition and affiliation fees, etc.

This allowance does not cover any visa fees, expenses of passports including photographs, tuition or fees that might be required by the American grantee institution, or medical expenses such as malaria pills or vaccinations.

Item 25e: The Department of Education will include sufficient funds to enable an institution to purchase basic health and accident insurance for each student fellowship recipient only. The university may use its discretion whether to use a university-contracted carrier or a student-contracted carrier. Compute the amount requested utilizing group rates of university-contracted carriers for coverage overseas.

Item 25f: Fixed \$100 administrative fee paid to institution.

Item 25g: Indicate sum of 25a through 25f.

Item 26: An application will not be considered unless dated and signed by the individual applicant.

Item 27: An application will not be considered unless dated and signed by the individual's dissertation advisor.

Item 28: The curriculum vita ought to be brief and address those previously cited evaluation criteria focused on the qualifications of the individual applicant. You may wish to list relevant course work dealing with your language and area studies specialization; indicate fellowships and honors received; describe your publications record and any other items which, in your opinion, give a panel of scholars a comprehensive view of your past achievements, ability to successfully complete the particular research described in this proposal, and overall promise as a teacher and/or research scholar. You may use this page as a cover sheet for your own professional c.v.

Item 29: This page ought to be used as the title page of your project description. It must be signed by your dissertation advisor if you are an applicant to the Doctoral Dissertation Research Abroad program. The project description must be limited to 2500 words (i.e., 10 double-spaced pages using size 12 font with one inch margins).

You should develop your 10 page, double-spaced project description taking into account the evaluation criteria provided in the sample Technical Review Form. Given the fact that, in addition to language and area studies scholars, non-specialists are included in the evaluation process and that host country officials will review your application and ultimately decide whether research permission is granted, you may also wish to consider the following factors when developing your project description:

- a. Host country sensitivities and interests.
- b. The use of English which can readily be understood by well-educated non-specialists.

Awards are not made to applicants planning to conduct research on topics which are determined to be politically sensitive by the host country or unfeasible. It should also be noted that the U.S. Department of Education will not submit to the host country any "dummy" proposal (i.e., proposals which do not accurately reflect the research purpose in the hope of avoiding difficulties with host country acceptance of the proposal).

Instructions for Fulbright-Hays Foreign Language Reference Form

The language reference form, which is required for this program, should be completed by a specialist in the language and returned to the contact person at the applying college or university. A completed reference for each language listed in item 9 of the *Fulbright-Hays Training Grants Application Form* must be submitted.

Instructions for Fulbright-Hays Graduate Student Reference Form

One of the three personal references must be obtained from the student's dissertation advisor. All completed references must be returned to the contact person at the applying college or university. Do not submit your references directly to US/ED as there is no guarantee any material submitted independently of the official university submission will be matched to your application.

INSTRUCTIONS FOR ASSEMBLY, DUPLICATION AND TRANSMISSION

A completed individual application packet to be forwarded by the contact person at the applying college/university should contain the items specified below and be assembled as follows:

1. The original copies of the following forms stapled in the order stated below:
 - (a) *Fulbright-Hays Training Grants Application Form* including c.v. and project description.
 - (b) One *Fulbright-Hays Foreign Language Reference Form* for each language needed to conduct the research outlined.
 - (c) Three *Fulbright-Hays Graduate Student Reference Forms*.
 - (d) Graduate Transcripts.
2. Two duplicate copies of the items specified above for the J. William Fulbright Foreign Scholarship Board and the US Embassy in the host country of research.
3. If the student is proposing research in more than one country, he or she is requested to voluntarily provide one additional copy for each additional country.

A complete institutional application to the Doctoral Dissertation Research Abroad Program is the sum of all completed individual application packets transmitted with two copies of the Application for Federal Education Assistance (Standard Form 424), one copy of the *Assurances -- Non-Construction Programs* (Standard Form 424B); *Certification Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; Drug-Free Workplace Requirements*; and *Disclosure of Lobbying Activities* (if applicable) to the U.S. Department of Education Application Control Center, Washington D.C. 20202 in accordance with the guidelines published in the notice inviting applications for new awards. Failure to meet the deadline published in the *Federal Register* will mean rejection of the application without consideration. There is no appeal of this requirement.

Frequently Asked Questions

Q: Am I able to apply for support to go to more than one country?

A: Yes, you are able to propose research in multiple countries.

Q: I know the DDRA program doesn't fund proposals which focus on Western European topics but can I go to Western Europe to consult or research human or material resources on a non-Western European topic not available in the US?

A: Yes.

Q: I am a US citizen studying at a foreign institution. Am I eligible for the DDRA program?

A: No, eligible applicants are institutions of higher education in the US.

Q: Can I apply independently of my university?

A: No, eligible applicants are institutions of higher education in the US. Your application must be submitted through the appropriate channels at your university.

Q: Should I include references or a bibliography. How long should they be?

A: References or a bibliography will certainly strengthen your application. We suggest submitting no more than two pages.

Q: Do the pages for references or bibliography count as part of the 10 page limit?

A: No, the 10 page limit is for the narrative only.

Q: To whom do I return the Graduate Student References?

A: Make sure you (or your referee) return them to your university contact. Do not submit them directly to US/ED as we cannot guarantee that any information submitted independently of your application will be matched to your application for review.

Q: What if I am proposing to use a much less commonly taught language and cannot find someone to evaluate me?

A: Please call our office. We will gladly assist you in finding a qualified evaluator. Your application will be significantly less competitive if you do not include a language reference.

Q: Should I include supporting letters from overseas host institutions or organizations?

A: Yes, these letters are helpful to the panel in evaluating your application.

Q: What if I can find a cheaper non-US carrier airfare? Does it benefit my application to request a lower amount?

A: No, all travel must comply with the Fly America Act. "Budget request" is not a criterion in the application review process.

Q: What if I am planning to get married after I apply? Am I eligible for a dependent's allowance?

A: That depends on your planned wedding date. At the time the grant is issued, it must reflect your status as of that date. However, if funds become available an allowance may be awarded.

Q: What if I am or my spouse is expecting a baby? Am I eligible for a dependent's allowance?

A: That depends on the date of the baby's birth. If the baby has been born when the grant is issued, you may request dependent's support. Availability of funds will determine whether or not US/ED will be able to provide additional support.

Q: Will I receive a "Grant Application Receipt Acknowledgment" when US/ED receives my application as stated in the back of the application?

A: No, this will be sent to your institution.

Q: When will I be notified whether or not I have been selected?

A: Regret letters are sent to the institutional applicant usually in February or March. Candidate status is announced usually in April and as late as September. It is the responsibility of the institution to inform students of their status. US/ED does not inform students directly. Awards are issued between April and September.

Q: If I'm selected for a fellowship, when can I activate the grant?

A: Assuming a grant document has been issued, the grant period will run from July 1, 2002 through December 31, 2003. You must complete your 6 to 12 months of research and return to the US within that period. No one is

authorized to activate his or her fellowship until the appropriate clearances have been secured (see Section B Item 25a).

Q: *If I move after submitting my application, should I send you address updates?*

A: No, please provide that information to your university contact.

Q: *May my university accept the award on my behalf if I am overseas during the notification period?*

A: Yes, provided you have not received a fellowship that duplicates the DDRA award benefits. Also you should leave a letter with your university contact person authorizing him or her to accept the award on your behalf.

Q: *Must I apply for my own visa and research clearance?*

A: Yes.

Q: *May I request copies of my reviewers' comments?*

A: Yes. However we will only respond to written requests addressed to: DDRA Program Staff, IEGPS, US/ED, 1990 K Street, NW, Washington, DC 20006-8521.
